### Full-stack Web & Game Developer – OJT

Assigned Task:

- Game Development ( Fullstack )
- Web Development ( Graphic Designer )

Sept. 05, 2022 – Jan. 30, 2024

CTC BPO

### Software Engineer

My responsibilities entail the ongoing maintenance of website performance, including feature enhancements, error debugging, system creation from inception, and system upgrades as needed.

Feb. 01, 2024 – March 31, 2024

Come2Win | Online Casino, Lottery & Sports

### Full-stack Web Developer

I was assigned to build the system from scratch, handling both front-end and back-end development, while ensuring a modern design aesthetic. Utilizing Vue.js 3 for the front end and CodeIgniter for the back end, I integrated RESTful APIs into our architecture. I'm particularly proud of this accomplishment, given the positive reception and engagement from the numerous users accessing our site.

## Soft Skills

- Problem-solving
- Critical Thinking
- Creative
- Adaptability
- Decision-making
- Fast learner

## Hard Skills

### Web Development

- Native PHP – OOP
